

The Composite Door Collection

Brimart 
W I N D O W S

147 Richmond Park Avenue, ROTHERHAM, S61 2JF

Don't compromise, go composite

We don't believe in compromising on quality. We've brought together materials to give you the very best in strength, easy maintenance, security, and weather resistance. Oh – and great looks as well.

Behind that rather scientific-sounding name, you'll find the latest technology and design in doors. When you're indoors you'll enjoy loads of style, strength and security. Our composite door is thick – but it's also very smart. In fact it's 44mm thick (compare that to conventional PVC panel doors at 28mm). Its powerful too, its super-strong structural frame and up-to-the-minute hardware makes our composite door even more secure. Its glass reinforced plastic finish means you'll be secure in all weathers and enjoying great looks for years to come.

The Contemporary Range

A front door speaks volumes about a property. Now you can make even more of a statement with our range of contemporary furniture suites that can transform your door into a real property feature.

Choose from the **Long Bar** suite, the ultra-modern **Square** suite, the elegant **Bow Handle** suite, our **Handleless** option, or the timeless **Classic** suite.

These hardware choices are undeniably elegant, but also incredibly hard wearing. Crafted from stainless steel, they will endure the demands of the British weather and everyday use season after season.

See **Page 64** for the full contemporary furniture guide.

Unless you choose handles on both sides (available on Long Bar, Square Bar and Bow handles) your contemporary range door will feature a pull escutcheon on the inside.

Satin Glass

Due to popular demand, we've added Satin Glass to our 'pattern glass' range. It's the perfect door glazing option for modern and contemporary properties.

Black-brown doors

We've created this new door colour, to better match the in-demand black brown foiled outer frame, as pictured here. This colour is exclusive to Genuine Brimart Windows doors.

Planet friendly

Brimart Windows doors were the first ever to be certified with an energy rating, and a bespoke energy certificate is issued with every door we make. Whilst the requirement in the UK is to be G rated or better,* any door we make can be configured to achieve a rating between A++ and D. The energy saving you feel can be enhanced further with the thermal glass upgrade option.

GRP - the longest product lifespan

Door Type	Expected Life	Maintenance
Softwood Door	25 Years	Paint, 5 Years
Hardwood Door	35 Years	Paint, 5 Years
Steel Composite Door	30 Years	Wipe Clean
PVC Composite Door	25 Years	Wipe Clean
GRP Composite Door	35 Years	Wipe Clean
PVC Panel Door	20 Years	Wipe Clean

Yale TS007 3-star security

Yale's Superior cylinder and Stainless Steel handle combination is accredited with the coveted TS007 3-star BSI Kitemark - the most secure available for composite doors and locks.

The TS007 1-star cylinder and can be combined with the TS007 2-star armoured Platinum handle, giving the door/lock combination the 3-star standard. The cylinder is anti-bump, drill, pick, tamper, torque and force resistant. It will withstand attempts to saw, wrench, corrode or even burn it out.

Police certified

If anyone knows about security, it's the Police. Our Secured by Design option meets their national standard for safer homes. It's not only Police-approved - it's recognised by many insurance companies. So as well as enjoying an added sense of safety, you could get a discount on your home insurance cover, too.

Yale Keyfree

We are all used to unlocking our cars with a remote control, now you can do the same thing with your front door. Brimart Windows were the first to offer Yale's Keyfree, giving convenience by allowing access without

a key. Whether, like with your car, you use one of the remote controls or enter your own personal code into the built-in keypad, Yale Keyfree couldn't be easier to use. No more lost keys, no more rummaging in your bag and no more cutting keys for visitors.

A close-up photograph of a Yale Keyfree door handle. The handle is made of a polished, gold-colored metal. It features a built-in keypad with 12 circular buttons arranged in a 3x4 grid. The buttons are dark with white numbers: 1-9, 0, *, and #. Below the keypad, the words "Alarmed Unit" are printed in a white, sans-serif font. The background shows a dark wood-grain door panel and a portion of the door handle's lever.

Alarmed Unit

Don't replace - reglaze

With our patented reglazable cassette system, changing the glass does not mean replacing the door - for whatever reason. We've made it easy to reglaze without any impact on the door or the cassette. In the event of the unexpected, or the glass units simply break down and go misty. So no drama, no fuss and no brand new door required.

Our cassette is also colour injection moulded to match your door – and fully accredited to tough BS:EN 6375 and PAS24 security standards

Lockmaster by Yale

Designed, developed and tested to deliver the very highest levels of performance for security and ease of use.

It's not hard to see why this has been one of the most popular multipoint locks in the UK for the last 15 years. The British made Lockmaster features a combination of hooks and anti-lift bolts. It's high security and peace of mind from the makers of the world's favourite lock.

Hurricane tested

The average rainfall in the UK is between 700mm a year in East Anglia and 3,000mm a year in the Scottish Highlands.* So we've designed our doors to be fully protected against extreme weather conditions.

Brimart Windows doors are tested in a pressurized chamber to simulate gusting winds starting at 63 miles an hour and up to 80 miles an hour - that's stronger than a hurricane. Then they are tested further by spraying two litres of water every minute directly at the door in their test chamber - that's a serious amount of rain. So even when it's cats and dogs out there, your door will keep you snug and dry.

WATERTIGHTNESS

Tested in accordance with
BSEN 1027

Solid grids

The Brimart Windows 2 panel 1 grid door design can feature a glazed unit with a solid internal grid. So when your eye glances across the glazed panel you don't see the inside of a glazing cassette, you see the effect that you would get if the door had 9 separate pieces of glass.

Diamond

Door Colours

Glass Patterns

GU Slam Lock

All Brimart Windows doors fitted with contemporary hardware are supplied with the GU 'Slam Lock'. This lock features bolts (see above) rather than hooks, that engage the moment the door is closed.

To lock the door from the inside the user turns the key or, if it's been fitted, the thumbturn. From the outside the door can only be opened with a key.

See **Page 64** for a full contemporary furniture guide.

Edged detail

Every sightline of a Brimart Windows door is considered. Even for the edge that spends nearly all of its life concealed. On the hinge edge of every door we apply a grained trim, and then we countersink the hinges to make a perfect flush finish.

Beware imposters

There are many unique features on a Genuine Brimart Windows door that you won't find elsewhere. With all the unique features we offer, it's important to know that you've got the real thing. All of Brimart Windows doors carry an official stamp on the hinge edge near the bottom of the door.

All the information in this brochure is provided for guidance only and is given in good faith, but without warranty or guarantee of any kind, whether implied or expressed.

Our policy is to continually improve products, therefore methods, materials and changes of specification may be made from time to time without prior notice.

Colour samples printed in this publication should only be used as a guide and are as accurate as our printing process allows.
